

STEM CURRICULUM SPECIALIST & CONTENT WRITER

Start date: November 2021

End date: March 2022

Location: Virtual, New York City

Type: Part-time, 20-25 hours/week

ABOUT THE OPPORTUNITY

H&L is seeking a Curriculum Specialist and Educational Content Writer to develop standards aligned teaching supports for our career readiness app and related materials. This opportunity is ideal for STEM educators who have a professional development goal for growth in curriculum and instruction design.

WHAT YOU WILL BE DOING

The position is ideal for high school and pre-service educators to work with our implementation team. Specifically, you should:

- **Engage and inspire.** Evolve and strengthen the instructional design of our self-guided digital content and game-based interactives to engage youth in technical skills that prepare them to be career ready.
- **Know your stuff.** Draw on your expertise in career development, interactive pedagogy, assessment, universal design, and/or culturally responsive teaching.
- **Design and write curricular content.** Collaborate with the product team to design new instructional components and content, including skills-based interactive modules.

WHAT YOU BRING

- Bachelor's degree in a related field. Preference towards degrees or experience related to science, education, psychology, and school counseling.
- Experience writing curriculum, lesson plans and activities aligned to standards frameworks.
- Attention to detail, including the ability to follow and replicate curriculum templates and style sheets.
- Excellent skills with Google productivity tools such as Google Docs, Google Sheets, Google Slides

- Excellent verbal and written communication skills.
- Excellent research skills.

SALARY

Commensurate with experience in curriculum development.
